BRIDGE IS BLOWN UP BY TURKS

Athens, May 22 (A. P.)—Turkish troops are reported to have blown up the bridge over the Maritza River connecting Adirup and Karaguth. The news caused consternation here. (This bridge is on the frontier between Turkish and Greek Thrace, as partitioned at the first Near East Peace Conference.)

Foreign Prisoners Forced to Salute Chinese Idols

Shanghai, May 22 (U. N. R.)—The Shantung bandits who raided a train, setting Chinese and foreign prisoners, forced the Christians to bow before idols in native temples on the mountain tops, according to Miss. Manuel Verna of Guadalajara, Mexico, who is in this city under care of a physician. She was among the prisoners. When given an opportunity for freedom she refused to part from her husband until illness forced her to do so.

ROBBERS BIND, GAG WOMAN

Lausanne, May 22 (A. P.)—The declaration of Foreign Minister Alexandre C. Greco that his nation, having decided to say no to immunity to Turkey, would withdraw from the Near East conference this week if the Ankara delegates persisted in their demands for reparations, has created a fresh crisis in the peace negotiations. M. Alexander told the foreign correspondents that "if the Turkish proposal to resume the war to obtain an indemnity then Greece accepts the challenge." "My government," he continued, "has determined to retire from the conference next Wednesday or Thursday, when the indemnity question comes up in a plenary session, if Turkey insists upon an unjust position or any effort is made to force Greece to accept this position." He said he thought that "if the worst comes to the worst the Greek army will be able to defend its honor."

Peabody, May 22.—Nineteen-year-old Mrs. Velimino Adams was bound and gagged in her apartment, No. 15 Highland Park, by two masked men, who departed without any loot, according to the story she told the police today. Mrs. Adams recently obtained a divorce. Mrs. Adams was found unconscious, tied to a bed, by her mother, Mrs. Annie Petruschka. Police are seeking the robbers. Mrs. Adams and her mother live in different apartments of the same building. The mother discovered her daughter's plight when she heard moans and investigated. Dr. John F. Bradley was called and, after five hours brought the girl back to her senses. She declared the men had thrown a towel over her face, and said they were going to pull her teeth out. She said she then went to sleep.

body of her baby daughter, Grace, aged 7½ years. Mrs. Gunning says her husband with no support, she claims that she and her child were neglected that she was forced to leave him and find employment. She is now living with her parents in Watertown and is employed as confidential secretary in the Boston office of the American Products Corporation.

Mrs. Gunning is twenty-five years of age and strikingly pretty. She was employed as confidential secretary to Vice-President Whitney of the brokerage firm of Whitney & Co. in this city when she first met Gunning. He visited the office frequently. It was said to have been a case of love at first sight, despite a difference in religion, Gunning being a Catholic, they were married in Dorchester after a rapid courtship, on May 23, 1921, at St. Ignace church in 1922, a daughter was born.

They lived in Dorchester for a short time and then moved to Madison, where Gunning started in business.

According to information received from Mrs. Gunning, she was told to return to the home of her parents and go to work. A mother came for her little Grace.

TELEGRAMS DENIAL

Gunning has threatened the wife that the report of his desertion was made to the Watertown, N. Y., telephone exchange was not true and said he could not account for the origin of any such story. There was a note of protest in the afternoon. Mrs. Gunning turned it over to Attorney Owen.

Mrs. Thompson exhibited letters she said were sent to her by Gunning and her daughter. In the same mail came a letter from Gunning asking her consent to marry him and another from the girl telling of her

BALDWIN IS NEW BRITISH PREMIER

Continued from First Page.

London had selected Sir Robert Borden to succeed Baldwin as chairman of the exchequer—the post Sir Robert filled in the last years of the Lloyd George ministry.

This arrangement to fill Mr. Baldwin's old position indicated an expectation that the present Lord Borden Law Cabinet would remain intact.

CURZON DISAPPOINTED

The solution of the curzon problem suddenly thrust upon the country is regarded as unquestionably a keen disappointment to Lord Curzon, who two days ago was regarded as almost certain to succeed Andrew Bonar Law in the office vacated by that statesman Sunday because of his ill-health. The foreign secretary, however, is pointed to as a victim of circumstance and not as being passed over because of any lack of ability, and certainly not from any lack of experience.

The sudden rise of the Labor party to the position of the official opposition in the House of Commons has made a prime minister in the House of Lords almost impossible.

Labor is without a single representative in the upper chamber and with the premier in the House of Commons the opposition party would be able to meet him in debate or confront him with questions, which is one of the strongest prerogatives of the opposition. This would have created a situation unknown to the history of modern times.

JUDGE REVOKES JAIL TERMS IN RUM CASES

Springfield, May 23.—Jail sentences imposed in district courts on fugitive law violators for their first offense will not be upheld by Judge Webster H. Thayer of Superior Court, ordinarily.

The judge made this known when he granted the sentence of thirty days in jail handed down by Judge Healy against James Gray of No. 231 North Main street.

A fine of \$100 was substituted for the jail term. District Attorney Charles H. Wright concurred with Judge Thayer.

The judge cited the statutes to uphold his action. Chapter 273, section 11, reads:

"Where a conviction of a crime punishable by a fine and imprisonment either in the jail or house of correction, except a person convicted under section 23 of chapter 126, may, at the direction of the court, be sentenced to be punished by imprisonment only, or by a fine only, if he shows to the satisfaction of the court that he has not before been convicted of a similar crime."

Later in his statement from the bench Judge Thayer said "If it is expected that I am to ignore the statute and substitute my own arbitrary personal views upon the question in place of the established policy of the Superior Court that has prevailed for more than a century, and recently sanctioned and approved by all Legislatures during the same period, I must decline to do so."

The judge declared that if an inferior court should carry jail sentences every justice of the peace would be occupied all the time in hearing jail cases.

Today

Earth Thinly Settled.
Coal Going Up.
Forewell, Delmonico.
Beware the Tangled Web.

—By Arthur Brisbane—

ON THE EARTH, according to the latest figures, there are a few more than one thousand million people. That sounds big, but it isn't. The magnificent State of Texas, with its wonderful "black wax" soil going down twenty feet and more, could feed them all by intensive cultivation.

OF THE eighteen hundred millions, more than forty millions live in eighteen big cities of more than a million inhabitants each.

Nearly millions of others live in 235 cities of smaller size. America has the largest city in the world, New York, with 5,629,643.

London comes second, with 4,532,249, and Berlin third, with 3,865,770.

EUROPE HAS more population than any other continent, except Asia. Asia has more large cities than North America. Europe has six cities with a million or more. Asia has six with a million or more.

When and how will human beings live five thousand years from now, when the earth has ten billions of population? They will live, of course, on the mountain tops, now wasted, and will fly to their work on the farms and factories in the valleys and on the hillside.

MR. KRUTTSCHNIG, head of the Southern Pacific Railroad, says coal will gradually increase in price in future, but isn't pleasant, but you may as well know it. He says the problem is to be solved by using electric power in place of steam, using steam turbines in place of old-fashioned engines on our locomotives, or, better still, making Diesel engines light enough to work on locomotives.

The government ought to be working at those problems. Presently, American inventive genius of the Edison brand will probably take care of the real crisis long before it arrives.

DELMONICO'S OF New York is dead. This writer has seen it gradually fading from Broad street in a location half way between the City Hall and Fourteenth street on Manhattan Island. Then from Fourteenth street, to Twenty-sixth street, from Twenty-sixth street to Forty-fourth street, and now the name is gone.

THE OLD Delmonico came over from Brooklyn, where he had a dairy farm, and started a little place in Broad street. He had the only apartment for rent in New York with a private bath attached. It was occupied by the late Albert Brisbane and his brother, George, and they, much to the indignation of their father, paid \$20 a week for that apartment early in the last century. Nothing so extravagant had ever been heard of. Now you can rent apartments in New York for forty thousand dollars a year and more, with many private bathrooms.

GRAFT GRAY AT STATE HOUSE

Investigation Threatens After Rumors That Gifts Were Demanded of O'Brien

A criminal investigation was threatened today of alleged attempts by members of the Legislature to obtain promises of unlawful gifts and favors from District Attorney Thomas S. O'Brien.

Reference to the State House charges that the District Representative in the Senate, Edward J. O'Brien, had promised to give the Legislature in return for their support of the action of the Legislature to appoint him as additional Assistant District Attorney.

O'Brien's bill passed the House and reached the Senate on May 8. It was not until May 10 that the Senate Ways and Means Committee reported on the bill.

The bill has been held in the committee two weeks without action, although the legislative leaders have expressed a strong desire to have the bill passed.

The State laws provide that any public official who attempts to influence the action of any body in his favor may be sent to State Prison for ten years.

Beauty Has Won Her No. 2

KATHERINE MACDONALD

ONE OF 12 MOST BEAUTIFUL TO WED AGAIN

Atlantic City, N. J., May 22.—A marriage license was issued at the Venetian City Hall for Katherine MacDonald, movie star, called by critics one of the twelve most beautiful women in America, and Charles Johnson of Philadelphia, grandson of Charles T. Schenck, inventor of the pressed steel railroad car.

According to Dr. R. Johnson, the wedding will take place at his home.

Mrs. MacDonald gave her age as twenty-eight and Mr. Johnson as thirty.

Mrs. MacDonald in previous life was Mrs. Malcolm Davidson, divorced wife of a portrait painter. She obtained a divorce in 1916, five years after she left the Winter Garden circuit to become the bride of the actor.

When the women were brought before the court, Davidson exclaimed: "Katherine MacDonald is my wife. I will have nothing to do with her."

MacDonald tried to get them to answer questions, but both refused. "Mrs. Davidson," refused to admit she was Clara Phillips, but the California officials who knew her in Los Angeles are certain she is the woman who escaped jail after being sentenced for the murder of Albert Davidson.

LEGAL FIGHT MAY INVOLVE ENTIRE \$20,000,000 SLATER ESTATE

WIDOW DETERMINED TO BREAK TRUSTEESHIP

The legal fight started by Mrs. Mabel Hunt Slater, widow of Horatio N. Slater, to break the voluntary trusteeship of her private fortune of \$7,000,000 will involve the entire Slater estate, estimated at about \$20,000,000.

This is asserted by Major Thomas T. Walsh, counsel for Mrs. Slater, in her legal action against the trusteeship of her own fortune.

Just how the main Slater wealth will become involved in the present action Mabel Walsh would not explain.

The trustees concerned are Frederick J. Bradley, an official of the Old Colony Trust Company, and Miss Abner A. Jones of Boston, formerly Slater secretary to Mrs. Slater.

WILL FIGHT TO END

Mrs. Slater intends to die the trusteeship," declared Major Walsh. "She has asked both to resign. In return to Allen after it should be said that she has agreed to resign. Mr. Bradley persistently refused."

Mrs. Slater, as the right to sue the trustees of the trust, to transfer all property to New York city, where she is now making her home.

She is a woman who does not know the meaning of the word "will" give will fight this issue in the courts until she attains her end."

The Slater children, Horatio N. Slater, Jr., James H. Murphy, formerly Ray Slater, and Mr. H. B. Smith, formerly Mrs. Slater's daughter, have no apparent connection with the terms of their mother's will against the trusteeship.

There was no question in this proceeding, Major Walsh emphasized, as to the integrity of the trustees.

When the trust agreement was executed in 1917, Mrs. Slater was seventy-five years of age. She desired, her counsel explained, to be free from financial cares. The purpose of the trust has now been accomplished.

HOLDINGS LISTED

The trust agreement by which Mr. Bradley and Mrs. Jones assumed charge of Mrs. Slater's fortune listed a risk array of securities. It covered to the trustees the following holdings:

Eighty-five shares American Sugar and Trust Co.; 712 shares American Telephone and Telegraph Co.; twenty shares Old Colony Rail-

WIFE QUILTS CRIPPLE WHO COULDN'T LIVE SOCIAL LIFE

Milwaukee, May 22.—A wife's craving for the social whirl of New York, which her husband cannot share because of injuries in a train wreck, have led to a separation between Clement M. Pettit, well known sportsman, and son of F. J. Pettit, the "milk king," and his wife who was Agnes Adeline, of Detroit. Pettit's father announced that his son and wife had "agreed to disagree," because the wife, a bride of fourteen months, could not give up her social engagements in which Pettit is unable to take part.

SERVANTS FIGHT FIRE IN VANDERBILT ESTATE

Newport, R. I., May 22.—Fire at a parsonage recently installed, manned by cookhouse, chauffeurs, butlers, footmen and other employees, confined a fire to the servants' quarters of Oakland Farm, summer home of William K. Vanderbilt. The damage was \$10,000.

Chicago—Increases in pay amounting to about \$4,000,000 a year have been given to 55,000 shopmen of the Pennsylvania Railroad.

There are so many ways to serve Kellogg's Bran—the one great aid to humanity!

You will enjoy eating Kellogg's Bran because its nut-like flavor appeals to the taste. And, more than that, each mouthful is doing to drive constipation out of your system and to re-establish health. That's because it is ALL WHOLE. Kellogg's Bran is essentially made to relieve suffering humanity—IT WILL DO THAT AS NO OTHER FOOD CAN!

Physicians recommend the regular use of Kellogg's Bran for mild or chronic cases and as a preventive. It acts each day and in proper quantity, awakes, stimulates and purifies the alimentary tract.

Get away from pills and cathartics—Kellogg's Bran will give you permanent relief from constipation.

BATES, MISSING FROM HARVARD, SEEN IN HUB

Hubert Bates, missing Harvard Graduate School student, was seen on a back day street by a girl acquaintance.

It appeared to be him, the girl told Mrs. Emily C. Latham of New York, secretary to Bates' father, who is conducting a search for him here.

"I expect to find Hubert soon, and take him back to New York, where he can receive medical treatment from his father, who is a surgeon," Mrs. Latham said.

Young Bates disappeared from his rooming house at No. 214 Columbia street, three weeks ago. He is known to have frequented Boston

Legion Poppies Labeled 'Made In Germany'

Cedar Rapids, Ia., May 22.—The red paper poppies bought for sale on "Poppies Day," May 26, by Kunkin Post, American Legion, were discovered to bear the label "Made in Germany." They were sold by an Indianapolis firm, which said the domestic supply was exhausted.

PROTEST TOWN POSTMASTER IN ELKS' HOME

Indefatigable, Va., May 22.—Resolutions protesting against the appointment by President Harding of H. M. Sower, formerly of Marion, Ohio, as postmaster of Indefatigable, were adopted here at a mass meeting of citizens.

Sower, an old friend of the president, is an inmate of the Elks' home here.

Sympathy for Sower, reported to be in financial distress, was expressed in the resolutions, which urged the president not to "assume any tax upon us for the benefit of Marion."

"In our opinion," the resolutions continued, "the appointment of a special tax to aid Marion would be illegal and unprecedented, as the appointment by the President of a citizen of Marion, Ohio, as our postmaster."

The action follows announcement in Washington that Harding, despite the protests of citizens here, intended to stand put on Sower's appointment.

Syrup Pepsin Loved By Hosts of Babies

Half a teaspoonful will make a fussy baby happy and playful.

THE mother has her choice of many remedies for her baby's minor ills, but she should be careful which remedy she selects lest she do the child harm. What might be safe for herself may do injury to an infant.

You will find that if the little one cries and doesn't want to play that its bowels are constipated. First look carefully to the diet and give the child one-half teaspoonful of Dr. Caldwell's Syrup Pepsin.

You will then see results in a few hours. You will not have to force it on babies or children; they actually ask for it, it is so pleasant-tasting and free from griping.

Dr. Caldwell's Syrup Pepsin is a compound of Epsom salts and pepsin with agreeable aromatics. The ingredients are stated on the package. It is a mild, gentle vegetable laxative that gives effective relief.

It is better for you and yours than purgative, cool-lax drugs, or salt.

Use a safe laxative like Syrup Pepsin, especially for the children, for invalids, growing girls, nursing mothers, elderly people, and persons recently operated upon who need bowel action with the least strain. Mrs. Lillian Bromington of Woodruff, S. C., always gives her children Dr. Caldwell's Syrup Pepsin, and Mrs. A. E. Blomfield of Muskegon, Mich., will not have any other laxative in her home. Your druggist will supply you. Your druggist will supply you. Your druggist will supply you. Your druggist will supply you.

It is constipation, colic, biliousness, flatulency, headaches, and to break up fever and colds.

WOMAN SCORIED, GUN IN HAND, TRAILS WAR AND HER RIVAL

THREATENS TO KILL SLAYER OF HAVERHILL BOY

Albany, May 22.—Jealous at seeing Walter S. Ward with another woman, one of the women he had scorned followed him and his companion in a taxi for blocks along the White Way with a pistol in her hand.

Only because she shared some street with him was she restrained from shooting at Ward and his companion. Stepped from his coupe at Broadway and Forty-second street. This information was given by Deputy Attorney General J. Edgar Hoover here by Edna Hughes, a colored real estate broker, who formerly was employed in the Police Department at No. 234 West 138th street.

HAD MANY "AFFAIRS"

Ward's affairs with many young women while he acquired a fortune in the insurance business in July, August and September of 1921, and while his young wife was away with their two children, were described again by former employees of the department. "Paul" Washington, colored, formerly an elevator man there, and Charles Brown, colored, page boy, corroborated Hughes and John F. W. Olson, the former superintendent, in their stories that Ward abused the favors of many young women. Ward's career began from death was this recounted by Hughes.

Ward came in at 11:30 o'clock. He asked me if there had been any telephone calls for him. I gave him eight numbers to call, all by women who had telephoned that evening.

"He said he didn't want to hear from any of them. He told me to tell anyone who might call up that he was not in, but that if they called on speaking to me to tell them that I was not in either."

"A woman called up and asked me to take a message to him. She told Ward she had been standing at Broadway and 139th street and had seen him drive away from the house with a young woman in his coupe."

"She said she got into a taxi and followed them down Broadway to Forty-second street and watched them go on."

"It was for me that I saw him and you," she said.

"When I saw you, Ward answered, 'Don't bother me any more. I've got a job in South America for the next five years to see all of the world.'"

"You don't dare leave me here, the woman cried."

"That was all Hughes heard from another woman who came in on the telephone and whom she asked how long she had been waiting. He brought them and took them away in his coupe."

Thayer-Richards Wedding of Boston Interest, Says Betty Alden

Photo Copyright by Becherich

Mrs. John F. A. Davis (Marjorie Marion Thomas) and her husband are others of the younger married set along the North Shore. Mrs. Davis, a bride of last July, is the daughter of Mr. and Mrs. Houston A. Thomas, who spend much of their time in Switzerland, though the summer finds them at their Hamilton place.

By BETTY ALDEN.

BEFORE Dr. and Mrs. Samuel Jason Mixer come to their summer place at Galloupe's Point they will spend a month or so on their farm at Hardwick. The latter is really quite a place, abounding in all manner of live stock in general, and Guernsey cows in particular.

The Mixers, whose town house is on Marlboro street, have been away most of the winter. I believe. They have, in fact, only just returned from a South American trip, though several of the old friends at Trinity Church in Florida. Mrs. Mixer was formerly Miss Wilhelmina Galloupe, and it is after her family that

the point in Swampscott is named.

DR. J. PAYSON CLARK of No. 71 Marlboro street has been spending a few days in Atlantic City on the Ambassador.

JUST a year and two days from the date of her own wedding, Junior Mrs. John Gordon Winchester (Lillian Aldrich) will be a bridemaid at the marriage of her stepbrother, Junior A. Richards, to Miss Marie R. Taylor.

The important event is scheduled to take place in New York on June 2d, at the home of the bride's parents, Mr. and Mrs. Benjamin R. Taylor. The prospective groom has already given his farewell dinner, and this jolly affair taking place early last month at the Harvard Club in New York.

Naturally, there's considerable Boston interest in the Thayer-Richards wedding for young Richards, a Harvard '15 man, was formerly of the Hall, where his mother, Mrs. Charles Frost Aldrich, had a home on Beacon street, and where the family lived until "Billy" Aldrich became Mrs. John G. Winchester. Then Mrs. Aldrich moved to New York to be near her daughter and Mr. Richards, whose business interests have been in Gotham for some time now.

William Prescott, of Boston, also a Harvard '15 man, will act as best man for Mr. Richards. As for the former Lillian Aldrich's wedding—scheduled on June 4th of last year at Trinity Church—it was naturally one of the big "love, honor and obey" events of the season. Of the Boston girls in her attending group were versatile Polly Perkins, who dances, skates and plays tennis with equal skill; blonde-haired Mabel Bremer, no much like her sister, Edith Bremer, whose marriage to Henry H. Paxton takes place this June, as well as Eleanor Winslow and Miss Linda Winslow.

Mrs. Palfrey Perkins, her wedding a quite affair of last December.

FREE FOOD FOR "SOLDIER OF FORTUNE"

New York, May 22.—Captain Patrick Irving O'Flay, extraordinary adventurer and man of many lean days in his fifty-two years, today faces an eye of destiny.

For the Society of Restaurants presented him with a good cut out in any one of the organization's 230 restaurants in New York City.

Captain O'Flay has known lean days in many countries in his career—enduring sun-rudder, mud-soaked, cold, carrier, submarine, ice-bergs, after-dinner speaker, and participant in seven wars. Virtually all the best restaurants along Broadway now are open to this world-weary few days ago that his most acute problem was that of eating between wars.

Captain O'Flay is said to have been the leading figure in Richard Harding Davis' "Soldiers of Fortune." The bold, various war decorations, including the American D. S. C., the British D. S. O. and D. S. M., and the French Croix de Guerre.

161,000,000 Gals. of Ice Cream Last Year

Washington, May 22.—Reports to the Department of Agriculture from 2,575 factories showed an increase of 12,000,000 gallons in the production of ice cream last year over 1921, the total for last year reaching 161,000,000 gallons.

The department also announced today that production of creamery butter last year totaled 1,152,215,000 pounds, an increase of 100,000,000 pounds over 1921, while the output of cheese was 370,000,000 pounds, an increase of 14,000,000 pounds.

Officials of the State Commission on the Necessaries of Life announced that they will do all in their power to prevent the eviction of the parents of two-month-old Clara Elizabeth Dineen, No. 72 Central street, Somerville.

The baby's parents, Mr. and Mrs. Theodore G. Dineen, charge they have been ordered to vacate because they violated the "orders" of their landlords, Mrs. Mary V. Polsey, prohibiting children.

Major John S. Wheeler of Somerville will take no action in the matter, it is understood.

"We will go to the bottom of this case, and we will make every effort to keep a roof over the heads of the child and her parents," declared one member of the commission.

26,000,000 women
wash all their fine things
this way—from dainty silken trifles
to big handsome blankets

Check this out!
The recently issued scientific data this morning showed that no woman in the United States washes her fine things in any other way than the way in which she washes them with Lux. This means that 26,000,000 women in the United States wash their fine things in the same way.

From Paris
For the woman who is a fashion leader, the fact that 26,000,000 women in the United States wash their fine things in the same way as she does is a very important consideration. It means that she is not alone in her choice of Lux.

This advertisement occupying 710 square inches (a double page) appeared in colors, in The American Weekly, May 6th

THEY had a big, new story. Scores of new uses discovered for Lux. How could they get their story quickly, simultaneously, to the 26,000,000 regular Lux users?

This is what they did. They prepared the greatest advertisement for a soap ever run. They put it in The American Weekly.

On the same day, almost at the same hour, the advertisement reproduced above was in the hands of one out of every four English reading families in the United States. 18,000,000 women, men and children from Maine to California were told of scores of additional uses for Lux.

This is one of the economies of modern large scale production—to reach millions of consumers at once. Compare the \$24,000 paid for this mammoth advertisement with the colossal cost of reaching 18,000,000 prospective buyers by word of mouth or by letter. The postage, alone, on the letters would cost more than \$360,000. It is merchandising like this that reduces the cost of commodities.

No other single medium in the world could reach 18,000,000 readers with one issue—almost one-fourth as many people as are reached by all the other Sunday newspapers in the United States combined.

Thrilling Story of Man and Girl Who Are Utter Strangers Living Together in African Jungle

Continued From Page 11.

Finally dropped sound asleep in her chair. She awoke two hours later to find the white man standing before her, clean-shaven, clear-eyed, smelling of soap and looking almost dapper in khaki helmet, shirt, breeches and puttees.

"Well, Mr. White Man," said Andrea.

He smiled a slow smile of relief as though he had been breathing his first words. "Will you come now?" he asked.

She arose, started to follow him and stopped with a gasp. "Why?" she exclaimed, her eyes fastened on the hut that had been the scene of labor. It was transformed. Before it now stood a veranda with a thatched roof. Enclosing the veranda, the hut and a tiny garden at its back, was a mighty stockade, each post of which was sharpened to a needle point. From the extra door ran a covered way as strongly built as the stockade and which connected the hut with its neighbor—that into which the white man had disappeared.

"Will you come?" repeated the man.

Andrea followed him only to stop again when she reached the veranda. It was carpeted with a long grass mat of vivid colors and on the mat stood chairs and a table. On the table was a hand-sewing-machine and from corner-to-corner, supporting a hammock. She had to stoop very low to enter the hut itself and once within had to wait a long time for her sun-filled eyes to accustom themselves to the kindly gloom. The man grew impatient and started a match. By its light Andrea

saw a vision of comfort. The room was cheerful and uncluttered so that one could look up and up into the very depths of its lantern peak. From that height descended a wire and on its end hung a lantern. The man lit it and showed her how it could be raised to a desired point on the circumference of the room and hooked there.

Even with the lantern lit, the room was still dimly illumined but the soft light was enough to disclose that the hut floor had been well covered with grass mats and then with the warm pelts of a dozen different kinds of game. On the side stood a cot already made up; beside it, a small camp stool. On the other side stood the hammock-chair, looking almost as comfortable as it really was, and close to it stood a carved table with a small table hanging from its end. A small table hung from its end. A small table hung from its end.

FOR answer Matt took her in his arms and though she lay there sobbing upon his shoulder until the shadows began to creep into the room, he knew that in her heart, as in his own, there dwelt a deep and abiding content.

Dear Sir, I am looking around and am finding the man who is hitting Mr. Kerry Brown. If you are wanting him you go in collar at No. 10 (an address in China town). He is very sick man. Your obedient servant, T. S. MOY.

At first when the chief and his men explored the cellar at the address given, they thought the writer of the note had been having a little joke at their expense, but presently they were convinced of his entire sincerity.

In an old trunk which occupied most of the space in a crude closet built against the rear wall they discovered the body of a Chinaman with a jagged scar along the side of his face. His head had been severed almost completely from his shoulders and he had been dead for days.

At approximately the same moment when this discovery was being made, an auto seaman, was going back at the restaurant where a horse from the deck of a ship bound for the coast of the Whangpoo.

"T. S. Moy, good boy," he commented himself with satisfaction. "Good boy, T. S. Moy."

ROMANCES OF JEWELS "STAR OF THE SOUTH" DIAMOND

By Barbara Bayne.

THIS diamond, which in the rough weighed 254½ carats, was found in the mines of Bagagem, Province of Minas Gerais, Brazil, by a negro slave. As a reward for his discovery, the slave was given a pension for life and his freedom.

He sold the crystal for \$5,000, and when the purchaser deposited it in the Bank of Rio Janeiro he got an advance of \$3,000 on it. It was then sold to a syndicate headed by H. P. H. who had it cut in Amsterdam at a cost of \$100,000. It was reduced in the cutting to 123 carats. It is an oval "brilliant," and pure "the fire" is considerable. It is one of the finest diamonds in the world.

TELL THIS AT DINNER

The lady was attired in the height of the fashion, and as she strutted through the main street of the village contempt for her lowly surroundings was written on every line—and there were many—of her face.

Suddenly she caught sight of a small boy, and she stiffened with anger. The boy was a ragamuffin, and he was carrying a bird's nest full of eggs.

"You're a very bad boy," she snapped without any hesitation. "A very bad boy! How could you throw the nest?" she continued.

"Now," the lecturer said, "suppose you had been called to see a patient with hysterics—some one, for instance, who had begun to laugh and found it impossible to stop—that is the first thing you would do. 'Analyze his funny bones!' replied the new student.

comfortable hammock-chair and reached for a book she realized that she was by no means as calm as she would have been had she been alone. The book she held before her was the book she had read and read it, drew her feet up to her knees and with chin resting on them, stared before her.

Things had moved so fast though the day that she had no time to mark more than their general course. Now she settled down to a deliberate survey. She went back to her mind to find out how her brothers and to the public at large as represented by the only dance. She imagined their conversation at her disappearance. She visualized the efforts that even at this moment were being made to trace her and felt the full force of their inevitable utility.

The airplane had made its start at low water; the riding tide would have rapidly obliterated its tracks. The searchers would have nothing—nothing to go on. There was only one chance so far as she knew and that was a slim one, the general excitement the native whom the white man had left behind might chatter his was also when she had suddenly started, she called as a witness. A SERIOUS CASE OF NERVOUS BREAKDOWN

Benefited by WINGCARNIS

"Some time ago I had a very serious nervous breakdown. I was in such a distressed condition that I could not get on my feet. I followed an attack of dizziness and I began to lose weight and strength at an alarming rate. As my condition grew worse, it became impossible for me to get a full night's sleep. When I was in this condition, my weight was almost unbearable, and the improvement was very noticeable before I had finished the first bottle. I can now say that I am well and happy, and my father and mother are both well and happy. I am very grateful to WINGCARNIS for what it has done for me. It is a very remarkable tonic for those suffering from nervous exhaustion, this blood, sleeplessness or great debility."

WHO SAID IT AND WHERE

"To hit the nail on the head."

This everyday expression is found in "Love's Cure," by John Fletcher (1576-1625).

"The survival of the fittest."
Herbert Spencer (1820-1903) in his "First Principles" thus describes the result of the struggle for existence.

"It's but a step from the sublime to the ridiculous."
These words are generally ascribed to Voltaire.

MRS. HICKEY'S SO WEAK COULD HARDLY STAND
Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health

Worcester, Mass.—"I had some trouble caused by a female weakness and I was unable to get on my feet. I was so weak that I could hardly stand or walk across the room. The doctor gave me all kinds of medicine, but it did not help me. I happened to meet a friend who had taken Lydia E. Pinkham's Vegetable Compound, so I thought I would try it. After taking a week, I began to improve, and now I feel fine and am doing all of my housework, including washing and ironing. I am willing for you to use this letter as a testimonial, as I would like to see any one suffering from such a weakness."—Mrs. DELIA HICKEY, 4 S. Ludlow St., Worcester, Mass.

Dishonest Legislation

Amendment to Gasoline Tax Bill a Piece of Chicanery Which Merits Defeat

The American has so far taken no part in the struggle over the two-cent gasoline tax bill. Concerning that controversy there is much to be said on both sides. But a turn has now been given the bill which deprives it of all worthy support. Its advocates have undertaken to deprive the opponents of the bill of a constitutional right by a legislative trick unworthy of good citizenship and unworthy of the reputation which a good man of the men behind this trick now enjoy. It is known that there are hundreds of thousands of automobile owners in this State who do not approve of this two-cent special tax, for it will greatly increase the cost of operating their automobiles. Those who object to this tax are numbered among all classes. In numbers those who are poor are, of course, greater than those who are well-to-do, but there is no division of sentiment along lines of personal wealth.

This creates a perfect condition for an appeal to the people for a decision. Nearly everyone in the State is interested, for there are about as many automobiles as there are families in this State. The opponents of the tax have a constitutional right to ask their fellow citizens what their opinion is on this bill and whether in their opinion it ought to become a law. Those citizens who are not active in opposition to the bill have a perfect right to express their opinion on it and to veto it if they constitute a majority of the voters.

Now what do the advocates of the bill proceed to do under the circumstances? They have added to the bill the appropriation of a contemptible little one thousand dollars for the purpose of preventing the application of the referendum on the bill. Under the provision of the constitution establishing the initiative and the referendum, it is provided that bills which carry appropriations for current expenses need not be submitted to the people for their approval. Therefore, this one-thousand dollar appropriation has been added to it for the very purpose, as its advocates confess, of having the Attorney-General rule that it need not be submitted to the people on a referendum.

The advocates of the bill might at least have been decent enough to have given some size to the appropriation. They might have been decent enough to attempt to deceive the people and thus not openly defy them as to their rights.

This amendment ought to be defeated immediately. If the House, like the Senate, passes the bill with this amendment, the Governor ought to veto it! And if it is enacted into law, we assure its advocates that it will be repealed on the initiative at the very first moment and the American will undertake to repeal it on account of the wretched trickery which prevents the appeal to the people. We shall nip this sort of dishonesty in the bud, even if it is necessary to have a constitutional amendment.

Honor Those That Resist Blackmail

They Set a Good Example to Others and Prove That They Possess Courage
Copyright, 1923, Star Company

Somebody, man or woman, for years past, has been sending anonymous letters to men and women in New York, writing to husbands accusing their wives of misconduct, writing to wives accusing their husbands.

Many men and women received such letters and kept quiet to "avoid scandal."

And thus keeping quiet they encouraged anonymous writers, blackmailers and the all-around rascals that prey on the timidity of the average man.

Finally the blackguards got around to Allan A. Ryan, who is in Wall Street, where men have to fight for their lives, and even then often lose them—financially.

Mr. Ryan did not keep quiet, and for that he deserves credit and public thanks. He went to the district attorney with the letters, demanded the identification and indictment of the blackmail, male or female, that had written them. The result is one indictment—the future will show whether or not it was based on fact.

A more important result will be the discouragement of such letter writers. Mr. Ryan and those that refuse to be intimidated or to keep quiet "to avoid scandal" or for any other reason deserve thanks.

A similar case came up recently when suit was brought against the youthful son of Harry Payne Whitney, an inexperienced, green boy.

Instead of "settling," paying huge money to those that brought the suit, Whitney fought the case and obtained an indictment for blackmail—another public service.

The way to discourage blackmailers is to fight them and indict them.

An Empire of Specialists

And Business Is Booming

Copyright, 1923, Star Company

Congressman Porter of Pennsylvania, chairman of the Committee on Foreign Affairs in the House of Representatives, declined to see Lord Robert Cecil, who came here to preach the League of Nations, because England, instead of discouraging the sale of drugs that ruin hundreds of thousands, PUSHES THE SALE because it is profitable.

Congressman Porter should remember that business is business, and the British Empire is an empire of specialists. It has men like Lord Robert Cecil that specialize in lofty sentiment and preach it nicely.

It has other specialists, like the men that for years have forced opium on the unfortunate Chinese, and scores of the kind that now pay special subsidies to owners of land in India, provided they plant the land with poppies to grow opium and make a big revenue for the British Empire.

The left hand does not know what the right hand does. Sometimes it does not care.

CAVEMAN IS CHOICE OF CO-EDS

GRINNELL, Ia., May 22—If a husband wants to be happy with a Grinnell College co-ed he must be of the caveman type, according to the answers to the girls at the Quadrangle, college apartment, to the question of what sort of a man do you wish for a husband?

The prospective hubby must also have a sense of humor and a "sweetheart" disposition. The girls prefer smokers to non-smokers and dark men to their blond brothers.

One modern bobbed-hair girl thought her husband would be a liar with some science, as she was bored with men whose lies were palpable.

Editor Boston American:
The people of this country are hearing so much about a big navy and a small navy that I believe they are getting tired of hearing about it. Why can't this country have a big navy?

If the European countries cannot agree among themselves, let them fight it out, and if those men in this country would like to involve us in European quarrels, let them go over to Europe and help them with the fight. From now on the people of this country must have a say in what is to be done in national and international affairs and not have the international bankers tell them that, for the world's peace to be maintained, you must help financially and also with your man power that Europe may live.

On \$80 a Month
Editor Boston American:
Am a widower with one son. My monthly pay as a library assistant is \$80. It costs us \$13 a week to live; \$14 for board and lodging, 80 cents for carfare. My husband is usually an apple or sack of peanuts. Sometimes I spend a dime. Out of the balance I clothe myself and my son and send him to school. And some people have more money than I have and live comfortably on \$25 a week! I advise them to try it.

THE MOVING FINGER IS WRITING ON THE HEAVENS

By Herbert Kaufman

A MAN named Wolf is killed in an automobile accident. His widow brings suit and a New York jury returns a verdict of \$500, which indicates the value of human life to some minds.

Also the ability of the defendant's attorney. Judge Rodin, presiding at the trial, properly refuses to accept the award. Justice must have some servants.

By contrast, French courts decide that the inventor of the "joy-stick"—by which aeroplanes everywhere are steered—is entitled to 7,500,000 francs damages, assessed at the rate of 500 francs per infringing machine. Which shows how much a good patent plus a good lawyer is worth. One is profited without the other.

The United States, unfortunately, won't have to pay the gentleman nearly so much. We haven't an aeroplane fleet of 5,000 effective units to support international politics or even defend national domain.

Experiences may some day build one for us—probably very sad experience. None are so blind as Congressmen who will not see the handwriting on the wall of the heavens.

Ripe for Another Man of Destiny

Secretary Denby reads it, though, and continues to plead for the fullest permissible navy forces, upstairs and down.

Great Britain, with an eye on chancier's spreading wings, feverishly presses plane production and meanwhile seeks to copper France on the best bet by urging the general limitations of air strength.

London would disappear from the map if the folk across the Channel suddenly decide to wear Napoleon's hat again and serve the dreams it covered.

Europe is ripe for another man of destiny. Poincare plays Frankenstein and he piles fresh fagots under the Ruhr steptop. Fifteen thousand more soldiers are crossing the Rhine to back still sterner courses in occupied territory. The stronger their army grows the greater prospect of a royalist coup for France.

Most people there are secretly convinced that monarchy is the ideal form of government and impatient at long-drawn negotiations and mounting taxes, abetted by unappeared revenue, require the present ministry soon to satisfy clamor for decisive action or yield office to mailed fists.

Hickory Limbs and Water

The militarist group behind Tardieu won't support a more moderate policy.

If the extremists themselves take command of the situation their drastic measures are apt to override republican sentiment and place the continent once more at the mercy of a bullying sword.

Poland, with 1,500,000 troops under arms, her budgets financed and her regiments trained by French strategists, awaits the word to start under the tricolor and with its fortunes.

That tour of inspection, from which Feck has just returned, is not without significance.

All in all, we are well out of overseas commitments, even to the extent of the World Court. Toe-dabblers in dangerous waters are sooner or later overwhelmed by unexpected waves. America is the one apparent island of safety. If we're wise, we'll stick close.

Dickens Couldn't Do It Today

Conferences here, there and everywhere. Social workers, comparing notes. Washington, are told by Governor Lowden that the number of defectives keeps increasing.

He might have mentioned also that standards for competence keep rising. The quality of humans was never better. The past was simply a bad dream.

Periods without compulsory education weren't able to test prevailing intelligence. Idiots have only lately been sequestered. Morous and imbeciles roamed at leisure through the last century.

"Barnaby Rudge" and the "Old Curiosity Shop" could not have been written today. Nineteen hundred and twenty-three enlightenment would have frustrated Dickens' best plots.

Julia Latrop, in a more optimistic mood, predicts that poverty shall be completely eliminated before another twenty-five years. Anything is possible for the future, provided man gets a strangle hold on his own cussedness. Otherwise bomb-dropping, gas-making projects will merely furnish civilization with means for self-extinction.

Sanity Uses a Toothbrush

Dr. Draper of the New Jersey State Hospital, where more than three-fourths of the patients undergo insanity cures, denies that lunatics necessarily pass their defects to progeny. Successful treatments serve to substantiate his theory that all mental disorders are due to physical derangements.

The road to the padded cell often starts with a badly capped tooth. In Dickens' time maniacs were beaten with chains. Nowadays we overcome mania with dental forceps.

When more of us realize that pus, leaking through the system, must finally work its way to the brain, little civilities won't go so long neglected. Sanity uses a toothbrush.

Let's slip a few tons of them to Russia. Even the Socialist party also in convention declares Lenin is crazy.

Inspiration for Cold Givers

The Socialists didn't waste time to comment on a statement that properly dressed women spend a minimum of \$35,000 a year for their clothes.

Fifth avenue specialty shopkeepers are reputed to consider that the least man with which one may expect to be "a glass of fashion."

Another place to distribute toothbrushes. One more fool idea set adrift to stimulate further extravagance and stir class hatred.

Pure badgerdash. There aren't a hundred wardrobes in the country guilty of such criminal squandering. Daily advertisements nail the lie.

All big metropolitan stores carry the best merchandise procurable and any of them will consent to dress a woman through a decade, furnish furs, lingerie, costumes and accessories suitable for all occasions from court presentation to the opera without exceeding \$15,000 annually. Don't believe everything you hear.
